FRANCIS JOSEPH GOES TO MUNICH.

THE BOULANGIST CONSPIRACY.

KING HUMBERT BOUND FOR NAPLES.

Vienna, 11th.—Emperor Francis Joseph left to-day for Munich.

Paris, 11th.—The arrests made last Sunday at Angouleme have been confirmed and all the arrested parties will be sent to the Police Correctionelle on the charge of inciting people to rebellion against constitutional authorities.

Rome, 12th—King Humbert and the Crown Prince left last night for Naples.

ANOTHER "SCENE" IN THE FRENCH CHAMBERS.

UNCLE SAM FLOODS "THE BRITISHER" WITH BEER.

Paris, 11th—The trial of Deroulede, Laissaunt and Laguerre, for resisting the authorities at Angouleme, has commenced. The olive-branch offered in the Deputies by Ferry is rejected with contempt by the Conservatives and disapproved by the Radicals. His efforts have provoked general disapprobation, as forcing on the Chamber a party conflict which Courtant said justified the authorities of Angoulemo, and he declared that in future the Government would not tolerate such provocations. The Right vigorously applauded this declaration.

Berlin, 11th—Secretary Blaine's delay in authorising the American delegates to sign the Samoa Treaty is said to be caused by reluctance to admit the German claim for indemnity.

Vienna, 11th—Emperor Francis left today for Munich.

Berlin, 11th—The Samoa Conference will meet to-morrow.

Paris, 11th—Goblet, speaking in the Chamber about Ferry's speech on Thursday, said he was not a Republican leader and had no right to make proposals to the Right.

Berlin, 11th—Government has notified the Swiss authorities that it is impossible to arrange the Wegelmuth affair, and that Germany reserves her right of action.

Cettinge, 11th—The Montenegrin army is preparing for active service.

Paris, 12th.—There was a scene in the Deputies yesterday about the Angoulemo affair. Home Minister's explanations were interrupted several times by Boulangist Deputies.

London, 12th.—The *Statist* says that, since July 1888, eleven North American Brewing Companies have been launched in England with a total capital of £6,361,000 sterling.

## SPREAD OF SOCIALISM.

It is not without some surprise that we read in the Police Report of this city that socialism in its worst form is spreading in Buenos Aires. The spread of such a movement in our midst, however, is a natural result of the insane taxation that renders the cost of living so dear among the masses. The enormous duties on sugar and wine, those on tea and coffee, the retrograde municipal legislation that makes meat and vegetables very much dearer than in former years, the rise in rents and the variegated array of evils springing from a depreciated currency, have combined in a very efficient manner to make the lot of the working man in this city nearly unbearable. It would appear that the chief aim of all our legislation is to levy taxes and swell the revenue, to the utter abandonment of the welfare and happiness of the people.

We have arrived at such a pitch that soon we shall be obliged to fall back on mammoth co-operative companies for the supply of meat, bread and vegetables, as the prospects for the future are anything but promising for the working-man. People will shudder to hear that the municipality is again in the ring for a cedula loan of 10 million gold dollars, to be followed up by another loan of 15 millions. Taxed as people are up to their eyes, where, we ask, will all this end? Twenty-five more millions of indebtedness means another turn in the rack of taxation, to meet the wanton expenditure of the corporation. At this rate we need not wonder if men earning at the rate of 2$50 per diem rush into the arms of Socialism, for they cannot supply their families with the necessaries of life and pay their stipend to the state in the shape of taxation, higher cost of living, or rise in rents; all these evils are direly related, and all spring from extravagance in the government of the city as well as in that of the country.

Is it, after all, astonishing to read in Colonel Capdevila's report that there is a deep agitation among the working classes of this capital; that socialism is at the bottom of the strikes among the railway workers and artisans in other trades; that numerous socialist clubs have been formed, flaunting the red flag as their common banner, and preaching the suppression of property, religion, and family ties; that these clubs are in contact with the socialist centres of Europe, whence emissaries arrived to organize the strikes we have witnessed of late. This is melancholy in the extreme; but our legislators to a great extent are to blame for this alarming state of affairs. Congress should pay attention to the matter, and with one clean sweep do away with all the taxes and charges that increase the cost of meat, bread, and vegetables. Such taxes should not be tolerated. It has been said that "octroi" has never been levied on urban English-speaking populations; let us hope that the day is not distant when we may say that such vexations are no longer tolerated in the Argentine Republic. Cheap meat, cheap bread, and cheap vegetables will always nip socialism in the bud. Render these articles dear, and all the police legislation in the world will not stem the socialist movement. Forewarned is forearmed; and the national Government should call the attention of Congress to the imperious necessity of an immediate remedy for the present evils that afflict the working population.

## MINISTER VARELA'S LETTER.

Mr. Rufino Varela, Minister of Finance, published a letter last night in the *Sud America* announcing that he had sent an article, under the heading "The Defence of my Ideas," to the *Nacion* and *Prensa* to appear this morning. Thus the note in our evening colleague is a mere preface to what is expected to appear to-day in the two leading morning papers. The Minister, however, seizes the opportunity to maintain that he is prepared to defend his financial bills and to show that the *Nacion* and *Prensa* have discussed and debated everything except those very bills he comes forward to defend.

The Minister goes on to say that, whilst the *Nacion* is pleased to call attention to the steady efflux of gold from the country and to the high premium on same, it entirely forgets the great change that has come over the spirit of the Bolsa since gold gambling was suppressed; thus, all bonds, shares and securities have risen and are quoted at prices much higher than previous to the 19th March; money is loaned out on stocks at a much lower interest also. Minister Varela explains this phenomenon through the induction that capital formerly employed in fomenting gold gambling is now invested in pursuits that foment the greatness of the country.

European capital, the Minister says, is freely offered to the nation, to the municipality, to the provinces, and to speculators in securities; money in London is quoted at 1½ o|o per annum: it would be, therefore, folly to assume that gold is exported from the country because gambling in the nation's coin has been suppressed on the Bolsa, and a violation of all the laws on money and currency is no longer allowed.

To quote the Minister's words:—"I beg to repeat—either some people are hoarding gold and conspiring against the value of paper money, or there is a demand for specie that explains the rise in the premium and justifies the efforts of the Minister to appreciate paper money. In either case the country must supply that demand, and to provide for that the Executive has sent its financial bills to Congress; if they are not adequate, let other schemes be submitted, and if they are better, Congress will approve them.

"Meantime, what would be the price of gold to-day, if the gold gambling had been allowed to continue, and the market were face to face, as it has been for the last five months, with low exchange? what, if the Government had not supplied the market with gold?

"What would be the price in this month of June, or in July, when remittances for abroad, for account of railways, banks, loans, etc" accumulate?

"Yet we see that exchange is higher than when the Bolsa decree appeared, and, although the rate is still under par now, all shares and stocks are much higher than previous to the decree; real-estate is more valuable, and money is cheaper.

"Why does gold remain at more or less the same level as in the middle of March? This is the query that the *Nacion* has not answered and the subject of study on the part of the Minister in his article "The Defence of his Ideas" which will appear to-morrow (to-day) in the *Prensa* and *Nacion*.

"I beg to state that it is not true that the Minister has received bills for 15 million gold dollars; but it is true that he has large sums of money in Europe to fall back on and help the exchange market.

*Rufino Varela*

After reading the above extracts, one is led to expect a very strong article from the pen of the Minister, and we repeat that we must refer our readers to the columns of this morning's *Nacion* and *Prensa* for full particulars of the Minister's views and plans. We may add, besides, as a kind of postscript, that in Government circles there is a fixed determination to stand by the celebrated Bolsa decree, and that, come what may, during the present term of Government no gold speculation will be allowed on 'Change; this dooms the hopes of brokers and dealers of the magic gold ring, of senescent memory.

## NEW RIVER PLATE ENTERPRISES

DEATH OF FATHER DAMIEN

"CHARITY BEGINS AT HOME."

Aix, May 17th.

During the past fortnight a dozen new loans or companies connected with the River Plate have been announced in the London papers, representing new calls for capital to a very large amount. It was said that the River Plate last year absorbed no less than 40 millions sterling, and this year the amount is likely to prove much larger. Stewart's railway in Paraguay and Bell's colonization scheme in Patagonia interested me especially. I cannot remember the names of the other enterprises, but I observe that one of them started last week by Gibbs drew such crowds that hundreds, perhaps thousands, of people went away disappointed, and at 3 p.m. the stock, some railway debentures, was at 5 per cent premium. The public of the money-market are apparently going mad about the River Plate.

I am often asked why the gold-premium is so high at Buenos Ayres, to which I reply that there is no immediate connection between this "boom" of new enterprises and the price of gold. The country is probably entering on a period of great prosperity, and yet each year may see paper-money steadily depreciate. Not that a fluctuating currency helps to push on the country; quite the contrary. But we see as a matter of fact that Australia, with its abundant gold currency, is attracting much less British capital than the Argentine Republic. Indeed there is hardly any part of the globe that is at present in such favor with John Bull, whose accumulation of wealth has been so rapid in late years that he is at a loss how to dispose of surplus capital.

Immigration is pouring so fast into Buenos Ayres that new industries will spring up on all sides, and in this way you may be able to absorb 20 or 30 millions sterling per annum for several years to come. It is reasonable to suppose that real estate will continue to rise, and before long it will be difficult to buy a square league under $100,000. Emigration from Europe must go on, increasing; many countries are over-populated. It is not merely in Italy or in England that men's eyes are turning to La Plata; in every village of France the names of Tucuman, Catamarca, Cordoba and Corrientes are as well known as those of New York or San Francisco. In Germany, Spain and elsewhere military service is a constant motive for young men to seek new homes beyond the ocean. The temperate climate of Buenos Ayres and the hospitable character of the people offer a great inducement, to which, however, there is one formidable obstacle, the difficulty of getting land on easy terms.

If the Government persists in refusing to enact a Homestead Law let Congress buy up 10,000 sq. leagues of land in suitable localities and offer it for sale in lots of 40 cuadras or 160 acres, at $400 per lot, payable in ten years. Emigrants can at present obtain land much easier in Australia than in the Argentine Republic, and this is a matter of supreme importance as regards new countries.

The death of the holy priest and martyr, the Rev. Father Damien, at Molokai, has sent a thrill through Europe, and although he was not an Englishman the feeling of regret has evoked the loudest expression from the English newspapers. Never before, since the Reformation, has a Catholic priest received such honors from the people of England: the *Times* even expresses a hope that he may be canonized before the customary interval of 60 years after death. Father Damien never anticipated that his humble name would be a signal for such manifestations. It was by a mere chance that an English yacht, which touched at Molokai in 1878, brought to Europe the news that among the colony of Sandwich Island lepers there was an European, a Belgian priest, who had lived there some years, building church, schools, hospital &c. for the sufferers. A few years later another traveller visited the island and spoke of the labors of Father Damien on his return. It was, I think, in 1885 that the sad news came of his having begun to shew signs of leprosy, from which time the patient rarely survives more than 4 years. In fact during his 16 years residence at Molokai he had buried the whole population three times; for he had read the last prayers, and sometimes helped to dig the graves of nearly 2000 lepers, the ordinary number on the island being 600. He was himself surprised that he did not take the terrible disease sooner, and always felt that he must sooner or later fall a victim to it. The first symptom was the loss of his eyebrows, after which the rest of his life was continuous suffering, until happily released on April 11th, to go and receive his reward.

It is an extraordinary fact that the Sandwich Islands knew nothing of leprosy till it was introduced about 1848. The Hawaiian race was then in a condition of rapid decline, and the disease made dreadful progress. The population, which Capt. Cook estimated in the last century at 400,000, was about 160,000 when leprosy appeared, and now it is no more than 40,000. If no steps were taken to check the spread of the disease the islands would be wholly depopulated by the close of the 19th century. The Government, some 20 years ago, set apart the island of Molokai for lepers, with sentence of perpetual banishment against even healthy persons who should once set foot there, except the doctor who made a monthly visit. Whenever any person at Honolulu or elsewhere shewed the first sign of disease he or she was at once rudely torn from friends and home, and deported to Molokai.

Until the arrival of F. Damien the leper island was a scene of disorder and despair, the Government merely sending provisions for the sufferers, but taking no pains even to bury those who died. But he soon changed the face of things. He told Mr. Clifford that when he landed there in 1873 he said to himself: "Now, Joseph, my boy, here is your life's work before you," not thinking at the time that he could survive so many years in such a deadly pest-house. His example has served to perpetuate his work, for he was joined a few years ago by Father Codordy and treeh Franciscan nuns, who are up to the present happily exempt from the disease. He was very anxious to see the belfry of his little church finished, and this might have been if he had six months longer lease of life. Last year an Anglican clergyman sent him a carpet for the interior, which gratified him exceedingly. He was deeply sensible of whatever attention was bestowed on his beloved lepers, for whom he often received presents from people in England. Those who have seen him describe him as a man of cheerful character, which helped no doubt to brighten his own existence and that of all around him. He was in his 48th year when he received the martyr's crown, for surely his self-sacrifice may truly be called a martyrdom.

The truth of this adage is impressed upon me by two announcements in the *Morning Post*, viz.—

"Yesterday the Lord Mayor closed the Chinese Famine fund, the subscriptions for which amount to £30,090."

"The London hospitals at present count 9,870 beds, of which 2,600 are empty, for want of funds."

Far be it from me to disparage the generous idea of sending relief to the poor, starving people of China. Charity is not limited by seas or mountains, by creed or complexion. But I would have the man who sends five pounds to China consider whether he should not rather devote four pounds of that sum to the London Hospitals. The claims of the London poor are sadly ignored by the rich men and women of England, who seem to think that the relief afforded by the Poor Law exempts them from all further liability. Look at the Duke of Westminster moving a bill yesterday in the House of Lords for the moral improvement of the Mandingoes and Hottentots, who are (His Grace says) much deteriorated by the actual liquor-traffic south of the Congo. His Grace derives about £650,000 a year, mostly from London house-property. He is perhaps a liberal subscriber to public charities, that is his donations may reach £10,000 a year or 5 days' income, his rental being £2000 a day. He may give even more, for aught I can say; but I maintain that his duties do not end here, that he ought to take a prominent part in some strong effort to improve the houses of the working-classes. The Mandingoes may be suffering, as His Grace says, from cheap liquor, but it is more important for us to provide cheap and wholesome lodgings for the people living within two miles of Grosvenor Square.

It may be preposterous at the present time to say a word for the hundreds of houseless families in Ireland, who ought likewise have a much stronger claim on public sympathy than Chinamen or Mandingoes. But there can be no question that the poor of London and the hospitals deserve more consideration than they receive at present. There is an eccentricity about English benevolence which deserves less praise than criticism. No money given in charity is wasted, but it may be that in bestowing their generosity on objects at the antipodes Englishmen overlook those paramount duties to their own flesh and blood which the possession of unprecedented and unlimited wealth imposes.

In no part of the world is poverty so appalling as in London. Within twenty minutes' drive of Charing Cross or the Mansion House you may see in the haunts of the poor such scenes of life and human suffering as would make your blood freeze in your veins. All that is written in Mr. Besant's novels falls far short of the reality, and yet men of the city come and go every day, make money, drink good wine, keep fine horses and carriages, as unconcerned for their fellow-beings as if they belonged to another planet. Hundreds of thousands of people have no roof, no home of any kind, but huddle together under the railway arches of the Thames Embankment to pass the night, when ice and snow cover the ground. It is all very well for Dukes and Duchesses to say that poverty is inseparable from the lot of mankind. Why not establish a Hospice at the Embankment, where an outcast may get a night's lodging and a loaf of bread without any questions as to their birthplace or occupation? When urgent claims of this kind be attended to, then will all sympathize with the Duke of Westminster in his efforts for the Mandingoes.

*M. G. M*

The Water-god is again at his tricks in Banda Oriental. At Artigas the telegraph wires were reported submerged yesterday, so there must be a pretty tall lot of water washing about that locality.

## FRENCH IMMIGRANTS.

Four months ago we read a statement in several French newspapers that ten thousand immigrants were dying of starvation in the streets of Buenos Ayres. The announcement excited great sensation in France, especially as it was made in connection with the dire fate of French emigrants in this republic. The Belgian papers picked up the "canard" and wrote at length of the misery of Belgian emigrants landing on these shores. Finally, the Irish papers published the news in black letters at the very moment when all were weeping over the misfortunes of the Dresden emigrants. The French Government swallowed the bait, and sent instructions to all the Prefects to warn people from emigrating to this country. It was then that the Argentine Minister near the French Government stepped in and sent the following letter to the French Minister of Foreign Affairs:—

Paris, April 24, 1889.

To His Excellency, M. Spuller, Minister for Foreign Affairs.

M. le Ministre,

I have just read in *Le Temps* a circular addressed by your honorable colleague the Home Minister to the Prefects of the Departments, in reference to emigration to the Argentine Republic. It is not my intention, Mr. Minister, to raise any objection to the motives for sending this circular, although it touches a question with which the interest of the nation I represent are bound up. I can very well understand that it is the duty of every Government to zealously guard the interests of the people over which it is called on to rule. Nevertheless, in the circular alluded to I find certain statements and appreciations which are not in harmony with the friendly and benevolent sentiments upon which the mutual relations of the two countries are founded. These appreciations might, if our trade and commerce had not reached so healthy a stage of development, injure our interests and find an echo in other countries. My Government will see with regret that all its efforts to win the sympathy and goodwill of the French people have been forgotten or overlooked in this circular.

The Home Minister affirms that the owners of uncultivated lands in the Argentine Republic are anxious to place settlers on them in order to raise the value of the land, and pay agents in Europe to secure settlers. From this the Minister infers that the emigrant is an object of speculation. In this I see no speculation, but merely an interchange of services, an association of capital and labour which economic laws, so far from condemning, stimulate.

The Minister adds that, when the emigrant lands on the shores of the Plate, with full confidence in the promises made by the agent, he finds that his labor is subject to the laws of supply and demand. So that if immigration were superabundant the surplus would be left without labor, in spite of the benevolent intentions of the local authorities. The first statement is also an axiom of economy from which so far no society has been able to free itself by ordinary means, and we have many examples of this in the principal cities of the world, but the enunciation of such a law is no proof that the law is at present in force in the Argentine Republic. Nor can the Minister prove what he affirms in reference to my government. I, myself, who am in daily communication with my government, would not venture to maintain the contrary, if labor, like capital or production, were to lose its equilibrium.

According to the circular the immigration agents exaggerate the advantages of the country. This legation has nothing to do with the agents alluded to, nor has it anything to do directly with that branch, but I cannot view with any sentiment but sorrow the recommendation made to alter the projects of intending emigrants. In every walk of life, as we are all consumers and producers, we are apt to exaggerate or depreciate the quality of the service offered or required.

Although I respect the plausible zeal of the Minister in the interests of the people I cannot remain silent in face of the statements made as to the conditions in which the emigrant is placed in regard to the land-owner and the Government. Such statements affect the credit of our very valuable rural industries and of laws and institutions which are framed to afford every protection to the foreigner against any abuse. The statement that the contract between the land-owner and the emigrant always places the latter in an unfavorable position is in direct and open contradiction with the liberty of work and industry proclaimed by our laws and industries. The colonist and the laborer are free to set their value on their labor, and the diversity of qualities and ability produces a scale of indefinite variety which is far from being subject to the conventional tariffs which nature and tradition impose on old societies. Furthermore, the description given in the circular of the circumstances of the assisted passage and the relation of the emigrant with the Government is quite at variance with what everyone connected with the Republic knows of its polisical and social development. I will not dwell on the exceptional cases adduced by the Minister, such as the loss of crops, etc. which would place the settler in an awkward position to pay off his debts. Let me state that the laws in this regard are framed to protect the settler to such a degree that the loss falls far more heavily on the capitalist. At the same time let me observe that in no case can the Government abuse its authority or power over the immigrant, because the Constitution is higher than the Government, and the powers of the State are so balanced that the humblest labourer can appeal for immediate redress to the Federal Tribunals and Supreme Court of Justice, in the case of the slightest aggression on his person or rights.

In this letter, M. le Ministre, it has been my desire to place and shew things as they really are, because it is my belief that a true knowledge and appreciation of the questions referred to in the Minister's circular are essential for the strengthening of the friendly relations which bind the two countries. I am sure that you, M. le Ministre, in presence of the sincerity of my Government's sentiments, will, with the courtesy and broad views which distinguish you, use your influence to eliminate the consequences of your colleague's circular, and the painful impression which such a document must cause to a friendly Government, in whose name I have the honour of addressing you this communication.

I seize this opportunity to reiterate the assurance of my most distinguished consideration,

*José C. Paz.*

## SOUTH AMERICAN TRADE

A LARGE AND ENTHUSIASTIC MEETING OF MERCHANTS AT DELMONICO'S LAST EVENING—AN ORGANIZATION EFFECTED FOR THE DEVELOPMENT OF TRADE—SUBSIDIES ADVOCATED—DETAILS OF THE PROCEEDINGS.

A well-attended meeting of merchants was held last evening in Delmonico's Banquet Hall, for the purpose of formally organizing the Spanish-American Commercial Union, an association "for the promotion of trade with Mexico, Central and South America, the West Indies and Phillippine Islands."

The Committee of Arrangements consisted of Messrs. John F. Plummer, A. R. Whitney, F. H. Mulford, J. M. Munoz, Charles Watrous, Benj. Gibergo, Wm. H. T. Hughes, Wm. P. Clyde, C. N. Jordan, H. K. Thurber, E. Gogoiza, S. Perez Triana, F. G. Pierra, R. A. C. Smith, Frank. W. Cheney, C. N. Bliss, Warnes Miller, D. de Lims, Charles. R. Flint, H. H. Rogers, Chas. A. Moore, W. R. Grace, C. N. Jordan, J. M. Ceballos, J. M. Munoz, Ed. Gogoraz, Ponce de Leon, Paul. F. Gerhard, Chas. Higgins, Antonio Gonzalez, John. E. Bacon, Col. K. Hain, H. J, Kimball of Georgia; Gen. E. F. Butterfield, and many others.

Mr. J. M. Ceballos called the meeting to order and requested Mr. H. T. Hughes to act as temporary chairman. The secretary pro tem, Mr. F. G. Pierra, then read the call for the meeting, and also an elaborate statement showing the commerce of different countries. The chief features of the statement follow;

Argentine Republic.—Total imports and exports for 1888, about $160,000,000; of these imports represent about $98,000,000, and these are divided as follows: Textiles and clothes, about $21,000,000; iron and manufactures, about $10,000,000; coal, coke, etc., $4,000,000; railway and telegraph materials, about 3,000,000; wood and manufactures, about $6,000,000. The percentage of the imports represented by the different countries is as follows: England, about 33 per cent; France, about 17; Germany, about 9; Belgium, about 7½; United States, about 7.

Bolivia.—Imports about $7,000,090; exports, about $10,000,000; total, $17,000,000.

No goods from the United States are seen there.

Brazil—Imports, $105,000,000; exports, $132,000,000; total $237,000,000.

Distribution of Imports—From England 45 per cent; France, 17 per cent; United States, 8 per cent.

Chili—Imports, $49,000,000, exports, $60,000,000; total $109,000,000.

U. S. of Colombia—Imports, $8,800,000 exports, $13,800,000; total $22,600,000.

Ecuador—Distribution of imports: From England, $2,000,000; from United States, $1,200,000.

Mexico—Imports, about $44,000,000; exports, produce, 18,600,000; do. precious metals, 31,000,000; dol. total 93,000,000 dollars.

Distribution of Imports—From England 6,000,000; from United States 8,000,000 dollars.

The total imports of the American countries south of the United States amounted to about 450,000,000, and the share of the United States is about 11 per cent, a very insignificant one.

A letter from President Harrison, commending the objects of the meeting, was read, and Chairman Hughes then spoke at length in explanation of the objects of the organization, which were, he said, to collect and group in form facts and information relative to the national resources, means of communication, products of the soil, state of trade and finances, etc., with such practical suggestions as may be of service to our manufacturers and business men in general not having direct means of information. Also, to cooperate with the members of the International Congress to the furtherance of the ends in view in such manner as may be in the power of the Association, and to extend such civilities and hospitalities as are due to the representatives of those countries who take part in the proposed conference.

Mr. Hughes further advocated the establishment of a subsidy system for the development of steamship communication with the countries with which it was desired to increase trade.

Mr. Hughes was followed by the Hon. Warner Miller, who dealt principally with the need of American banking facilities in the countries in question. He declared in conclusion, however, that before the subject of banking facilities, that of a rapid and regular mail communication should first receive attention. "My practical experience as a legislator," he continued, "is that the only feasible way of securing this direct communication is to pay liberally for carrying the mails in American steamships. Give us a regular steamship service for one year and we will increase the business with those countries 100 per cent, if not more." Mr. Miller further dwelt upon the importance of sending the American goods in convenient packages. He predicted that if the objects of the association were carried out the United States would have fifty per cent of the South American trade in less than four years.

Mr. Edward A. Hopkins was then introduced. He stated that he had spent forty-nine years in Spanish America. One great trouble, he thought, is the constant changes that take place in our Consular service. "As soon as a man gets to know even a little about his duties he is removed and a greenhorn is sent in his place." Mr. Hopkins concluded by stating that the Argentine Republic was prepared to subsidize a line of American steamers with $100,000 if America would do the same."

Addresses were also made by Messrs. John F. Plummer, S. P. Triana and H. J. Kimball, and a recess for refreshments was declared.

After the repast the members re-assembled, and the following officers were elected to serve until May 1, 1890.—*New York Commercial Bulletin.*

## Railway Items.

DEARTH OF NEWS—THE PROVINCIAL RAILWAY BOARD—AN URUGUAYAN RAILWAY CONCERN ON THE LONDON MARKET.

There was a lamentable dearth of items in all the Government departments yesterday. The National Railway Board have their hands in their pockets, with the exception of Mr J C Cortinez, who is busily at work giving the finishing touch to his report, which, we hear, will be most voluminous and will contain tabular statements as long as the Andine railway and no doubt equally interesting. At the Engineers' Department there is nothing new. Mr Pirovano, the well-known "chief," is looking after the general-railway plan, which he and Dr. Araoz were commissioned some time ago to draw up. As the map is to contain a list of railways that should be built at once, the task is delicate and requires much study. However, we may safely say that the map will be out within the next fortnight and will, no doubt, open the eyes of many a would-be concessionaire.

At the Board of Public Works all is quiet, at least in regard to railways. The Inspector-General's report, which we summarised in a recent issue, has been sent to the Home-Office, but the Minister has not yet had time to look over it.

In a word the railway-atmosphere is oppressively and monotonously undisturbed. The unexpected is, perhaps, going to happen.

The kilometrage run by the Oeste Santafecino last month was as follows: Locomotives 21,831; carriages 68,350; wagons 125,611.

The Pacific Railway Board have presented to Government the plans for a bridge (45 metres span) across the Rio Mendoza.

We learn that the plans for the railway from Rosario to Pergamino have been begun.

Mr. William Moores has applied for privilege to extend the rails of the City of B. Ayres Tramway on the Paseo Julio from the Retiro Station to the Recoleta, turning into the diagonal boulevard and joining a branch-line which will start from Central Station and terminate in Palermo. After 60 years the line would pass over to the State. This concession will be very valuable, and considerably increase the network of the City of B. Ayres.

Our La Plata exchanges yesterday brought the sad announcement that the Provincial Railway Board is acephalous, which is the scientific way of saying that it has no head. The statement will be very readily believed, and it is certainly the best way of explaining the supineness of the Board, and the present state of the Western Railway. They say in La Plata that the Board had no right to draw up the new time-table.

In late London exchanges we see that Messrs. Schroeder and Co. invite subscriptions for the Uruguay Northern Railway: This Company has been formed to carry out a concession granted by the Republic of Uruguay, for the construction of a railway of about 114 kilometres, or nearly 71 miles, commencing at the station of Isla de Cabellos, on the North-Western of Uruguay Railway, and terminating at the town of San Eugenio, on the Brazilian frontier. This railway forms part of the system of railways provided for by the Law of Railways of 27th August, 1884.

This railway, the North-Western of Uruguay, the Midland Uruguay, and the Central Uruguay Railways will form one continuous line from the Brazilian frontier to Montevideo.

The Department of Salto, through which the railway will pass, is one of the most wealthy and populous of the Republic. The construction of this line will afford a much-needed outlet for the stock and produce of the district. The facilities offered by the railway, and the absence of river competition, should secure a good revenue from these sources of traffic, in addition to the general opening up of the country and the access afforded to Southern Brazil.

The Uruguayan Government guarantees, upon the terms appearing in the Laws and Concession, for the period of 40 years from 1885, interest at the rate of 7 per cent per annum on the kilometrical value of the railways this has been fixed at £5,000 per kilometre, which on 114.2 kilometres makes the total amount of guaranteed interest £39,970 per annum.

Messrs. Perry Cutbill, De Lungo and Co. have entered into a contract for the construction, completion and equipment of the entire railway, to the satisfaction of the Engineers of the Government and the Company, within the time prescribed by, and in conformity with, the terms of the concession, the contract price being £220,000 of the Preferred Shares (or their proceeds) the Ordinary Shares and the Debenture Stock; they further agree to provide funds for administration during construction, and for working capital. The present issue is made on their account.

The works were commenced some months since, and the line, it is hoped, will be completed within 21 months.

Arrangements are in progress with the North-Western of Uruguay Railway Company under which that Company will work and maintain this Railway for a proportion of the gross receipts, regulated by a sliding scale.

The law reserves to the Government the right to purchase the Railway after 25 years from its commencing to work, at a fair valuation, plus 20 per cent. The payments made by the Government on account of its guarantee are payable (without interest) in the event of the net returns of the line exceeding 8 per cent on the guaranteed capital, but only out of the excess profits over 8 per cent.

## EDITOR'S TABLE.

Romeo and Juliet to-night at the Politeama and the City Budget were (of course, after the weather) the main topics off 'Change yesterday. Patti is said simply to surpass herself in this opera. The Lord Mayor will have his say about the city finances to-morrow.

No more letters, "an you love us", gentlemen, about the quadrangular Platense question. The weather is too cold. Mr. Fitz-herbert sent us another yesterday, but the case is closed, and counsel for the plaintiff has no right to address the court again—till the next time.

There are telegrams detained at the River Plate Telegraph Office, Calle San Martin, 287—

From Agnone for Rappolonia.
„ Vigo „ Dunkerke.
„ Barna „ Guantaten.
„ London „ Landon.

At a meeting of the Committee of the Turn-Verein yesterday, it was resolved that Preiskegeln will be carried on from the 15th to 22nd inst. There are several fine prizes, and British competition is desirable.

The balloon Condor, in which we were invited last week to take an aerial trip, was blown to bits the other night at the Recoleta. If we had gone up under that balloon, we'd be floating about now in the neighbourhood of Jupiter or Saturn. What an escape!

We are informed that the news from Asuncion about Dr. Forster's death is incorrect in one essential particular. The lamented gentleman did not commit suicide, but succumbed to a sudden stroke of apoplexy.

The Education Board is pickling a rod for the private schools of the city, only one or two of which have complied with the law obliging them to send in the number of their pupils, classes, teachers, and other particulars.

We offer Mr. Nicholas Fitzgerald of the Anglo Argentine Tramway our sincere sympathy on the death of his little two-years old boy, the second child he has lost in the last few weeks.

There is a general groan from theatre-goers living on the Northern line at the suppression of the midnight train to the Tigre. The fashionable residents of San Isidro, San Fernando, Belgrano etc. are all passionately fond of music and the drama, and, no doubt, Mr. Brown will feel touched by their present sorrow and resume the train.

The intense cold at night now is beginning to tell on the 'attorante' class. One of these unfortunates died in a police cell on Tuesday night. They are all habitual drunkards, and the cold gives them apoplexy to put an end to their misery. It is by no means creditable to this generally charitable city that the effort made some years ago to open a Night Refuge for the wretched class in question should have failed so absolutely. It should be tried again. Let the Municipality do it, if private charity is so indifferent.

A London society paper says: The Bishop of London only gets £10,000 a year; but unfortunately Dr. Temple is far from popular in his diocese. It is said that he has only three remarks to address to those who seek him in business: "What is your name?" "What do you want?" and "No."

Advices from Mendoza report the new Governor in office and all serene again or the moment in that politically uneasy province.

All the late General Santa's property is to be kept together for his family and not sold and divided as yet. Dr Ibarra is the trustee.

"An old-time writer states that among the ancients it was esteemed highly improper for single or unmarried persons to wear rings, unless they were judges, doctors, or senators. With all others it was regarded as evidence of vanity or lasciviousness. Later, however, it was permitted to affianced persons to wear this honourable decoration, and this fact is certainly proof of the high honour in which wedlock was held.

The Press Association will move into their new quarters in Calle Lima (between Alsina and Victoria) next week, and we hear there will be a house-warming.

William Prior, a seaman of the British barque Cingalese, now in Rosario, while engaged in painting the ship's side the other day, fell into the river and was drowned.

The *Roma* published yesterday a portrait of Malatesta, head of the gang of forgers that gave us all such a fright about our Cordoba Bank notes for the last week. He is no beauty, but does not at all look so bad as might be expected, He appears to be on good terms with his tailor, whom he, no doubt, paid with some of the now too famous "fifties."

The Cordoba Bank-note forgery's nine day's career as a wonder is over. The scare has fizzled itself out, and the National Bank clerks can now rest a bit. Not a few parties holding Cordoba notes refrained from going to exchange, saying that when the fright subsides the old notes when genuine will again go round freely as before.

Some of our colleagues anticipate rare fun about the Lord Mayor's report on the financial position of the Corporation, which he is expected to lay before that illustrious body to-morrow. We always like a bit of fun in the Municipality. It keeps the citizens alive this cold weather.

The Naval School boys have got holidays till the end of this month, to enable them to enjoy the sweets of "dulce domum," after their cruise on the West Coast.

Parties enjoying pensions from the La Plata Government must look sharp, as a new Treasury rule provides that unless the pension is applied for before the 25th of each month, it will be forfeited for that month

### COLLET Y LLAMBI
### A PLAZOS!

Sin interes, de 1.200:000 de varas cuadradas divididos en 4 lotes sobre el gran boulevard de Circunvalacion. Proximos a la estacion Liniers F.C.O. y a la casa de ejercicios, conocido en el plano general con el nombre de Campurro. Lindando por el N. O. con Paula Garcia de Weigel, por el S.E. con M. Espino y Juan Zapetta, por el S.O. con Ramon Mejia, y por el N.O. con J. Zapetta y Emilio Furst.

Terrenos altisimos sobre la loma mas alta que corta el boulevard de circunvalacion, con doble via de tramway proyectado.

Inmejorable para la agricultura, produciendo y agricultura muy buena renta por la fertilidad del terreno y la escasez de agua que produce alfalfa con la que obtiene.

CON LA QUE COMPENSA EL INTERES DEL CAPITAL.

En una palabra los terrenos mas lindos y de mayor porvenir que hay en los alrededores de Buenos Aires a 40 minutos de la capital por el F.C.O.

El Boulevard de Circunvalacion de 100 metros de ancho que lo dividira en dos valcarizara muchisimo este sin rival terreno por su belleza topografica.

### MINISTERIO DEL INTERIOR

Habiendo dejado sin efecto la licitacion a que se llamo por aviso del 9 de Enero pasado para la terminacion de las obras de Riachuelo, por no haberse llenado los requisitos exigidos por la ley, llamase a nuevas propuestas por el termino de 30 dias para la terminacion de dichas obras con sujecion al proyecto definitivo de las mismas que podran consultar los interesados desde la fecha en el Departamento de Obras Publicas, y en la Secretaria de la Comisaria Administradora de dichas obras.

Las bases a que deben sujetarse los proponentes, ademas de las ya establecidas, son las siguientes:

1° En las propuestas debera fijarse un plazo aproximativo para la terminacion de las obras.

2° La expropiacion de los terrenos que fueren necesarios sera por cuenta de los proponentes.

3° Los precios de las obras seran unitarios—El pago se verificara en virtud de certificados mensuales que formulara el contratista de acuerdo con el inspector tecnico nacional de las obras que el gobierno nombre y que dependera del departamento de obras publicas.

4° Los proponentes se obligaran a refaccionar y reconstruir y reforzar los malecones existentes y en los puntos que se requiera mediante el previo convenio con el inspector.

5° El tren de dragado y demas utiles que se hallan a cargo de la comision administradora de las obras del Riachuelo, debera ser recibido por los contratistas y sera tenido en cuenta al formular los precios unitarios.

La entrega del tren del dragado como de cualquier otros utiles que los empresarios reciben, se hara bajo inventario, en el que se establecera el estado en que dichos utiles se encuentren a fin de que sean devueltos al gobierno a la terminacion de los trabajos sin mas deterio que el correspondiente al uso natural.

Las propuestas deberan presentarse en papel sellado de cinco pesos m/n. y acompañadas con un certificado de depósito en el Banco Nacional por importe del 1 o/o del valor de las obras y á la orden del Ministerio del Interior.

La apertura de las propuestas tendrá lugar en la secretaria del Ministerio del Interior, el dia 9 de Junio del corriente año, á las 3 p m., en presencia del escribano mayor de gobierno y de los interesados que quieran concurrir al acto.—Buenos Aires, Mayo 9 de 1889.—EL SUB SECRETARIO.

### Dr. J. Collis Browne's
## CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvelous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, In Cholraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

ESPECIFICO
DE
Hayward en Polvo

The cheapest and most effectual Dip in the market.

It costs a fifth of the price of Tobacco Dips.

It is the easiest of application, cold water only required.

It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.

It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.

See Testimonials from Flockowners in the Argentine Republic.

Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.

Established upward of 45 years.

Sold in cases containing either 80 small, 20 medium, or 10 large packets. Each case makes 1600 English gallons, or 1900 Galones Argentinos.

The tide in the stock market seems at the flood. All values are for the moment stationary, and bears are in expectation that the reaction may set in at any moment. In fact, this is the general opinion in the hall, where a general decline, from which only two or three stocks are excepted, is discussed, and the advance in the gold premium adds strength to the conviction, as it is supposed that dear gold must exert a neutralizing effect on the State Banks' discounts, and thus produce greater restriction in the money market. Of the stocks excepted, the first is Constructors, which have not joined in the general "boom," and are consequently not likely to be liable to the reacting influence; secondly comes Pobladores Scrpi, which is said to be very well held, and thirdly National Bank Shares, about which opinion is divided, those believing in the syndicate pinning their faith to further advance, and the bears pooh-poohing the syndicate and preaching a tumble in quotations. There can be no doubt that at present the latter view predominates, and consequently prices betray a falling tendency, but the absence of animation shews that the bears are afraid of being trapped into a "corner" similar to that of last month, whilst the numerous buyers offering for duly sustain prices for end of month.

Business in National Bank shares only embraced 2000 sold for end month at 266 to 265.50, nothing having been done either for cash or July. Constructors were brisk both for cash and end month, closing at 136.50 and 137.50 respectively. Catalinas were weak, falling away to 163.50 for end month and 165.50 end July. Some Mercantile Bank shares changed hands at 75 o/o premium and Previsora at 175 and 176 for end month. A new stock, the Reaseguros, made its appearance under the usual violent fluctuations that mark nearly every debut, opening at 150 for end month jumping to 160, falling away to 145 and closing at 148. Pobladora were fairly steady at 188 for end month. Credito Real for same date was also steady and firm, closing at 157,50. The other stocks were quiet and Provincial Cedulas weak.

The Sociedad Cooperativa de Consumos has applied for approval of statutes. Capital 300,000 dollars. Likewise the Anonima Cooperativa, for supplying comestibles to the working classes; capital two millions of dollars.

Messrs. Causinette and Co. have asked for a concession of two leagues of seashore to start a fish preserving factory on the Atlantic coast, fronting Necochea, at the mouth of the Quequen Grande.

Messrs. Morande and Co. have applied for concession to work a steam tug company in port and up river to the Chaco and Misiones. Capital, one million gold dollars.

The National Bank sold to-day 239,860 gold dollars at 61 and 62 premium.

The Sud-Americano Bank has borrowed in London £100,000 sterling at four per cent.

The Italian and River Plate Bank has been declared by Government incorporated under the Free Banking Act, and authorized to issue one million dollars in notes.

The three English banks in this market, viz., London and River Plate Bank, English Bank of the River Plate, and the English Bank of Rio, have protested against being subjected to the gold export tax, as they have not exported the precious metal to such extent as to warrant the Minister's including them in the list of specie exporters. The amounts expatriated by these three banks are a mere bagatelle.

There is much anxiety in the market caused by the rise in gold and the great delay in Congress about despatching the Varela projects by the Committee. Merchants naturally ask why is this delay, which is so prejudicial to the market. Most of the Bolsa brokers consider that before long the gold sales on the Bolsa will be resumed, and the speculation in gold ten times greater than ever known before. It is to be hoped that they are mistaken, and that the interests of the country will be considered by Congress. Gold was reported this evening at 163, and this notwithstanding that first class sight exchange on London was offering at 47 5/8.

Mr James Balfesty left for Rojas to-day, where he reports everything in the most prosperous condition, camps splendid and animals fat.

The Bolsa correspondent in London wired the news to-day that the Bickhert cable concession has been disposed of to the Telegraph Construction Company, and that the Crw del Eje Cordoba Company has issued £350,000 in shares.

At the second hour the salient feature was a heavy speculation in Credito Real shares, 17,300 being snapped up for end of month, opening at 158½, rising to 161½ and closing at 161. Pobladora shares were buoyant, closing at 191 for same date, but the sovereign stock was weak and neglected, closing at 265½. In Cedulas National Series were firm and Provincial weak. Catalinas fell off to 163 for end of month, and the other shares were quiet.

Mr. G. O'Dwyer, estanciero of Entre Rios, was welcomed on 'Change; he reports a great advance in the price of all estancia lands up there. Mr Rhodes, manager of Ashworth and Co., leaves for Europe in the Don.

It may interest many of our readers to know that President Juarez Celman stated to-day in the presence of Dr Pacheco, Minister of Interior, and a third party, that so long as he is President of the Republic no sales of gold will ever be allowed on the Bolsa.

The Italian, German, French, English and Belgian papers are all at present occupied with the subject of Argentine Emigration, and it looks as if Emigration from Europe to the Plate is as yet but in its infancy. Mr. Casey in Montevideo is making a magnificent contract with the Montevidean Government for bringing out one hundred thousand European families, to make colonies in the Banda Oriental.

In the notice published in the London papers of the Buenos Ayres Loan and Trust Company we note that Mr. T. Farrell, formerly of Montevideo, now appears as Resident London Director.

The Veloce Steamer Company has now organized a service of steamers between Tangiers and Buenos Ayres, which is a move in the right direction.

It appears that a pamphlet published by Dr. Saldias in Paris on the River Plate and the aim of the Italian Government to colonize the whole of the River Plate with Italians has given much umbrage in the Quirinal, and has attracted the notice of other governments besides the Italian. We have not as yet seen the pamphlet, but suppose copies must have come out here.

The new Italo Uruguay bank we hear has got splendid banking relations in Genoa and will do a very large business. The shares are already at a good premium.

Carriage horses are now so scarce in Buenos Ayres that buyers are out all over the camp. This is good news for Curumalan, where the best carriage horses in the country are bred.

The new debentures of Obras Publicas 7 per cent are bid for at 90. We hear, however, that they will be all taken up for London a/c, as the stock is well secured and gives a splendid interest.

Coal is so scarce in Paraguay that they have all taken to burning wood up there now, and great employment is given cutting down the trees near the river bank. Luckily there is plenty of timber in Paraguay.

Everyone on 'Change asks what is the delay in Congress about the Varela projects: some of the evening papers say that the committee is opposed, but this, we doubt; still in such all important matters delays are most inconvenient.

We regret to note the retirements of Mr John Drysdale from the Riachuelo board. He proved an active, good Vice-President, and thoroughly master of all the business connected with the Riachuelo drainage.

It will be remembered that some time ago the Entre-Rios Executive seized on the Castellanos Island in the Parana, in virtue of its having been denounced by several parties as fiscal property, and sold it to those same parties without fulfilling all the formalities of the law. The previous occupant, Mr. M. Castellanos, immediately brought his case before the Supreme Federal Court, and has secured a verdict reinstating him as lawful owner of the island and condemning the Entre-Rios Government in all costs and damages. The matter has been the subject of much comment both in Santa Fe and Parana newspapers, and the decision of the court is generally approved.

The following new "Centro Agricola" concessions are reported:—

J. E. Etcheverry, for 30,000 hectares in partido of Lincoln.

D. Martinez, for 7,297 hectares in Tapalque.

Joseph Drysdale, for 4,200 hectares in Trenquelanquen.

Ten land surveyors for "centro" have also been formally approved.

The following animals, imported by Mr. Philip Pinckney, were sold to-day by Messrs. A. Murrish and Co.:—

Two mares at 1,400 m/n each; buyer Mr. J. R. Lanus.

Two stallions at 1,500 m/n each; buyer Mr. J. Fernandez.

The Board of Directors of the Bolsa Bank have declared a dividend of 5 p.c., or say 2½ dols. on the 50 p.c. scrip and 50 cents on the 5 o/o scrip. The dividend is payable from 1st to 15th July, as also a further call on the shares.

We see by Rosario advices that a project is on the tapis to start a Provincial Mortgage Bank with 100 million dollars capital, and it is said that the promoters are anxious to devise some system of advancing money other than the Cedulas. Fifty millions will be for Rosario and departments and fifty millions for Santa Fe. Further particulars of this great business are eagerly looked for.

It is said that the Pobladora company remains with 15 million yards of land which cost them 28 cents the yard, which they would not sell at a dollar the yard.

The following members have been admitted to the ring by the Camara Sindical: Rufino Martinez, Cesar Rocca, Juan P. Segui, B. Duhalde, A. S. Ortiz, E. Carreño and L. Decheza.

The Canalizadora Company of the Riachuelo just formed is much discussed on 'Change, and many parties think it will be as great a success as the General Pobladora, of which it is a kind of son and heir, inheriting from the latter the concession to canalize the Riachuelo in exchange for 1/2 million dollars and the further right to buy from the Pobladora 7,875,000 varas land with 50 square frontage on Riachuelo at 1 dollar the yard, payable 6 millions in shares and the remainder in cash at dates. The capital of the company is fixed at 20 million dollars and the board is as follows:—Dr. R. B. Muñiz, R. W. Blanco, T. Mendoza, P. Ledesma, H. F. Guerrico, J. Calvo, M. Regungaga and A. Ferrari, all of whom were founders of the Pobladora. The following parties have applied for from 1000 to 500 shares of the Canaliza, dora:—Julio Calvo, Francisco B. Bosch-Hugo Bunge, H. F. Guerrico, Juan A. Garcia, P. Rouaix, A. Donovan, Angel Sastre, Musso and Malpelli, D. Veiyra, Cesar Gonzalez Segura, J. M. Olmedo, B. Zorrilla, Ramon Blanco, Alejandro Ferrari, Toribio Mendoza, T. Lariviere, J. A. Roca, H. C. Quesada, W. Pacheco, E. Lamarca, J. B. Iturraspe, Luis M. Campos, A. P. Bell, and Cinna Malpelli, etc. etc.

Engineer Dominico, in his report for last month on the port-works, states that excavation-works of Dique No. 1 were very briskly carried on, and those of No. 2 were begun. During the month the cubic thrown up amounted to 64,217 metres, and over 810 lineal metres of stone-work was done. The last wall of Dock No. 1 has reached a length of 422 metres, whilst the length of the west-wall is 113 metres. The south end will be begun this month. The height of the N. E. and N. W. walls of the dock may be set down at 7 metres. The south lock works will be continued this month. The swinging-bridge over Dock No. 1 is nearly up and will be at work soon.

Glycerole

GLYCEROLE is the finest preparation ever invented for polishing Boots and Shoes. It contains oil, therefore it preserves the leather and does not crack or dry it as the ordinary gloss or dressing does. It also makes worn goods look like new.

For Sale at the principal Shoeshops.

"VILLA MODELO"
Easy terms of Payment

The attention of the English-speaking population of Buenos Ayres is directed to build sites in the newly projected town of "Villa Modelo," one square from the Villa Catalinas Station on the Rosario Railway, within half an hour's journey of the Central Station.

The land has cedulas on it, and the conditions of purchase are most favourable. A large market will soon be in course of construction. These lands are rapidly increasing in value and intending purchasers should apply at once, to

Luminous Phosphorus! Important to Invalids!

All Medical Authorities agree that Phosphorus, administered in its free—that is, unoxidised—state, is an unvaluable remedy in disorders of the Nervous System, especially in Loss of Nerve Power, Mental Depression, Incapacity for Work, Want of Energy, Neuralgia, Feeble Digestion, Loss of Physical Vigour. In these and other conditions indicating defective nutrition or exhaustion of the nervous centres, arising from over-work, the effect of climate, and other causes. It is the only effectual remedy.

The four great Remedies for Nervous Disorders

Phosphorus, Iron, Quinine and Nux Vomic

each in its proper dose, are prepared in combination, in the form of Compound Phosphorous Pills. They are coated to render them tasteless, and supply the best and safest means of administering the above powerful tonics.—Sold in bottles 3s. 5s. and 10s. (English money.) The 10s. bottle containing sufficient for a course of 3 weeks. Two 10s. bottles may be obtained direct from the makers' laboratory, carriage paid, by remitting Post-office order for 25s.

DECKER'S
American Whiskey.
ABSOLUTELY PURE

This mild, mellow and delicious Whiskey is distilled from the finest growth of carefully selected Rye grain and Barley malt. It is a marvel of wholesomeness, excellence and evenness of quality, unequalled by any Whiskey in the market. It is bottled in bond for export only, is entirely free from fusel oil, possesses a natural flavor and fine tonic properties, suited exactly for the use of invalids and weak and sickly persons. It is cooling, refreshing and strengthening so pure, smooth and ripe, and agreeable to the palate as to invite the attention of connoisseurs. 4 458 my30
